RE: Key to the north gate of the fence that surrounds the Albion-Sheridan Township Landfill, Albion, Michigan

Dear Mr. Fitzpatrick:

At the request of Ms. Leah Evison of the U.S. EPA, I am sending you the key that I believe will open the north gate of the fence that surrounds the Albion-Sheridan Township landfill. There is a slight chance that the Michigan Department of Natural Resources has put a different lock on that particular gate. I have left a message for them to call me. In the event that they have placed another lock on that gate, I will ask them to send you the key directly. Please call if you have any difficulties. Thank you.

Sincerely yours,
